Damp In. Dry Out!

DEHUMIDIFICADOR ELECTRONICO MEDIANO EDV-2200
The EDV-2200 Dehumidifier uses Whisper Technology (no compressor) which makes it light and quiet. It is perfect for small rooms, closets, kitchens, etc. Poor ventilation can cause odors and fungus in wardrobes, cabinets, storage rooms, etc. The EDV-2200 Dehumidifier eliminates this problem by keeping these areas free from excess moisture.

1. - Power Switch
2. - "On" Green LED
3. - "Full" Yellow LED
4. - Air Intake
5. - Removable water tank
6. - Dry air outlet

• To avoid electrical shock, do not tamper with the unit. Tampering with the unit will void the warranty.
Specifications

3E

Capacity
Approximately 20.5 ounces per day; 86° and 80% RH

Cooling
Thermo-electric Peltier module

Power Adapter
12V DC 6AMP (DO NOT COVER)

Power Consumption
72W

Removable Water Tank
2 Liter Capacity

Water Level Detector
Automatic Switch to indicate tank is full

Drying Feature
Warm air outlet on both sides

Product Dimensions
8.5”(W) x 14”(H) x 6.75”(D)

Connections

1. After removing the packaging materials, there will be 2 items:

A. EDV-2200 Dehumidifier
B. AC/DC Power adapter

2. Plug the DC power jack (11) of the power supply into the adapter socket (8), then connect the AC Plug (12) of the power supply to the wall socket.

3. Press the “On/Off” button (1) to the “On” position, the EDV-2200 dehumidifier will begin to operate. This action will activate the green LED light.

4. To turn off the unit press the On/Off button to the Off Position.
Removing The Water Tank

When the water tank is full (Approximately 2 liters). The unit will automatically turn off and the “Yellow” LED (3) will turn on.

To remove the water tank, first turn the unit off. Then remove the water tank from the unit and empty the water. Place the water tank back into the unit, and turn the unit back on to continue dehumidifying.
Cleaning

5E

Before cleaning the unit, turn off the EDV-2200, then unplug the AC plug from the wall socket first. Use a soft cloth to clean the surface of the unit, and a cotton swab to wipe the dust from the grill of the air inlet (4).

⚠️ Caution ⚠️

DO NOT SUBMERGE IN WATER! DO NOT COVER THE AC/DC POWER ADAPTER!

Weekly Maintenance
Wipe all vents with a cotton swab.

Monthly Maintenance
Pour bleach water into tank to kill any bacteria that may have formed.

Warranty

“See the Warranty Card. Tampering with or altering the product in any way will void the 1 year manufacturer’s warranty.”

Troubleshooting

What if the unit won’t turn on.
A. Make sure both of the plugs are securely installed.
B. Make sure the water tank is pressed all the way in the unit.
C. Check and see if the water tank is full.
